❖ Objective

Front-End Developer with **5+ years** of experience building responsive, scalable web applications using Angular, React.js, TypeScript, JavaScript, HTML5, and CSS3. Proven expertise translating UI/UX designs into dynamic, high-performance user interfaces and integrating RESTful APIs for seamless data flow. Skilled in Agile/Scrum environments, cross-functional collaboration, and delivering clean, maintainable code. Seeking a Front-End Developer role to leverage multi-framework expertise (**Angular, React.js**) and drive innovative, user-centric digital experiences.

❖ Technical Skills

- HTML5, CSS3, SASS, Bootstrap, Tailwind.js
- JavaScript (ES6), TypeScript, Angular 2+, React.js
- RESTful APIs, GraphQL, WebSockets, Git, GitHub, Agile/Scrum
- Unit Testing, OOP, Ajax
- Design Patterns, Data Structures & Algorithms

❖ Educational Qualification

Computer and Information Systems

High Institute for Hotels, Tourism & Computer

❖ Professional Experience

Senior Front-End Engineer

July 2025 - present

Travel Booking Platforms (Bookto, Wyanaa, Alkhamees) Techeffic - Full-time (Remote)

- Developed front-end features across Flight, Hotel, Transfer, and Travel Insurance modules, enabling users to search, compare, and book services seamlessly.
- Owned end-to-end development of the Transfer and Travel Insurance modules, integrating RESTful APIs for real-time pricing, availability, and provider data.
- Built responsive, multi-step booking flows with form validation to guide users through complex transfer and insurance purchase journeys.

Senior Front-End Engineer

April 2025 – May 2026

(IoT Dashboard Development) Etmam - Part Time - KSA (Remote)

- Developed real-time IoT dashboards with interactive charts, maps, and live sensor readings.
- Integrated Google Maps API for device location tracking and status display.
- Transformed sensor data into clear, user-friendly visualizations for faster decision-making.
- Collaborated with backend teams to ensure seamless data flow via RESTful APIs.

Front-End Developer

July 2021 - present

Upwork (upwork.com/freelancers/fady.e)

- Top Rated Freelancer on Upwork: Recognized for consistently delivering high-quality projects, maintaining a 90%+ job success score, and exceptional client satisfaction.

Mid-Level Front-End

April 2023 - December 2024

EgyCard – Egypt (www.card4games.com/)

- Integrated RESTful APIs, payment gateways, and third-party services with backend teams.
- Directed Git workflow standards for branching and pull requests.

Front-End Developer

March 2021 - June 2023

Roomz Arabia – KSA

- Convert UI/UX designs (e.g., from Figma, Sketch, or Adobe XD) into functional code and ensure the designs are consistent with the brand's guidelines.
- Test websites on multiple browsers to ensure compatibility and consistent user experience across platforms.
- Write clean, well-documented, and maintainable code that follows coding standards and version control practices using Git.
- Implement mobile-first, responsive web designs using CSS media queries to ensure web applications are functional on different devices.

Angular Developer

2023 - (6 month)

Larat Platform – Saudi Arabia (www.larat.online/en-US)

- Built reusable components and implemented state management using RxJS for smooth data flow.
- Collaborated closely with UI/UX designers and backend developers to align functionality with design specs and business logic.
- Implemented role-based access control using Angular Guards to ensure dashboard security.
- Improved performance by applying best practices in lazy loading and on-demand module rendering.

UI Developer

December 2021 - August 2022

Hype Experiences - San Francisco

- Assist in developing responsive and user-friendly web interfaces using HTML5, CSS3, and JavaScript.
-
